

SCIENCE FOR EVIDENCE-BASED AND SUSTAINABLE DECISIONS ABOUT NATURAL CAPITAL

OUR VISION

SELINA will provide guidance for **evidence-based decision-making** that supports the protection, restoration, and sustainable use of our environment.

Through a collaboration of experts from 50 partner organisations from all 27 EU member states, Norway, Switzerland, Israel, and the United Kingdom, SELINA will set **new standards for international cooperation** to promote Ecosystem Services (ES) and Biodiversity (BD) conservation and enhance Ecosystem Conditions (EC).

Providing robust practical information and recommendations to stakeholders from both the public and private sectors, SELINA will pave the way towards the **transformative societal change** required to achieve the ambitious goals of the European Biodiversity Strategy 2030 and the Green Deal.

WHAT MAKES SELINA UNIQUE

A **multinational transdisciplinary network of professionals** ranging from ecologists, economists, and social scientists to decision-makers of all levels

A compilation of **the most complete and up-to-date knowledge base on ES**, integrating new and existing knowledge built through various EU projects and global initiatives

Practical, **fit-for-purpose recommendations** with real-world applications in policy making and business decisions

An unprecedented opportunity for smart, cost-effective and **nature-based solutions** to historic societal challenges such as climate change, biodiversity loss, and food security

SELINA receives funding from the European Union's Horizon Europe research and innovation programme under grant agreement No 101060415. Views and opinions expressed are however those of the author(s) only and do not necessarily reflect those of the European Union or the European Commission. Neither the EU nor the EC can be held responsible for them.
